THE COMPANY ORGANOGRAM

DIVERSITY IN STRUCTURE

As one of the largest providers of residential property in South Africa and the only multi-faceted property services company in the country, Renprop operates multiple integrated divisions within the real estate realm.

These include residential and commercial property development projects, residential property sales, residential property rentals, commercial broking, property management in both the residential and commercial arenas, and gap housing.

PROPERTY DEVELOPMENT

Renprop has been one of the most prolific providers of sectional title residential property in the northern suburbs of Johannesburg in recent years. Renprop's developments are ideally located in key business hubs and surrounds, stretching from Rosebank and Sandton to Rivonia, Paulshof, Bryanston and Douglasdale.

Renprop has undertaken a variety of developments from high rise apartment blocks and high-density sectional title developments to exclusive townhouse complexes and pure rental schemes. Renprop develops these properties on a joint venture basis with its partners.
